

Table 14A. Profile of Persons with SMI/SED served by Age, Gender and Race/Ethnicity

This is a developmental table similar to Table 2A. and 2B. This table requests counts for persons with SMI or SED using the definitions provided by the CMHS. Table 2A. and 2B. included all clients served by publicly operated or funded programs. This table counts only clients who meet the CMHS definition of SMI or SED. For many states, this table may be the same as Tables 2A. and 2B. For 2007, states should report using the Federal Definitions of SMI and SED if they can report them, if not, please report using your state's definitions of SMI and SED and provide information

Please report the data under the categories listed - "Totals" are calculated automatically.

* The reports shown on this website contain numbers for Indiana residents who are served by the Hoosier Assurance Plan (HAP) and do not contain numbers for all Indiana residents who may receive mental health or addiction services. The HAP is the main method by which the Indiana Division of Mental Health and Addiction can fund community mental health services. As established by the Indiana Legislature, the HAP is designed to support and manage the delivery of behavioral healthcare services to individuals who are in a low income population and who have clearly identified mental health needs.

* Persons with a diagnosis of only substance abuse or mental retardation are not included in these reports. Therefore, persons with a co-occurring diagnosis of mental illness and substance abuse or mental retardation are included.

* This report currently contains data from the Community Services Data System (CSDS) and Creative SocioMedic's - Behavioral Health Information System's - Decision Support System (DSS).
